

Shiro Technologies

Cloud, products & public-sector delivery

Federal cloud transformation. Commercial products that already run.

Shiro Technologies designs, builds, and operates cloud, DevSecOps, data, and AI for government missions — and ships private-sector platforms you can open today. The same people who operated CMS-scale cloud estates now deliver hiring, documents, and publishing products from Silver Spring, Maryland.

◆ THE SHIROTECH DIFFERENCE

Federal expertise

- Cloud transformation across both major CMS cloud ecosystems — OIT Cloud and CCSQ Cloud.
- Mission delivery for FDA recall-prediction, DoD trauma training, and USCIS immigrant-benefits platforms.
- Maryland-ready small business: eMMA, MBE/SBR posture, and Silver Spring delivery.

Technical leadership

- End-to-end cloud transformation: 100+ applications hosted in 1k+ AWS, GovCloud, and Azure accounts.
- Full lifecycle experience across cloud platforms — stand up, operate, harden, and hand over.
- Trusted as the only prime contractor to manage both major CMS Cloud ecosystems (OIT & CCSQ Cloud).

Modern mindset

- User-centric products, operations tools, and processes that make work easier.
- Reducing costs, AI-driven automation, and optimizing cloud performance.
- Agile delivery that adapts to the mission in front of us.

◆ CORE CAPABILITIES

Cloud transformation & platforms

- Account standup and landing zones
- Multi-cloud operations (AWS, GovCloud, Azure)
- Hardened operating platforms
- DevSecOps and governed release
- Findings that become work
- Audit-ready operating patterns
- CIS, STIG, HIPAA, FedRAMP-aligned practice
- Full-lifecycle cloud operations
- Cost and performance optimization

Identity & Zero Trust

- Workforce identity and access
- Zero Trust patterns for agencies
- Security findings into work
- ISSOs and CIOs can score

Data, ML & AI

- Data platforms program offices run
- Governed machine-learning
- Train, promote, release with checkpoints
- AI-assisted operations products

Mission applications

- Hiring, documents, and publishing products
- Healthcare and payments portals
- Immersive training environments
- Applications hosted on the cloud

PAST PERFORMANCE — SHIROTECH PROJECTS

CMS · OIT & CCSQ

Centers for Medicare & Medicaid Services

End-to-end cloud transformation for Medicare and Medicaid: account standup, identity and Zero Trust, hardened platforms, and data platforms program offices can run. Prime on both major CMS cloud ecosystems.

FDA

Recall-prediction operations

Governed machine-learning for product-recall prediction. Models are trained, promoted, and released with audit checkpoints a regulated science agency can stand behind.

DoD

AI trauma training

Immersive medical training for Department of Defense clinicians — high-fidelity practice environments, an evaluation engine, and a path from rehearsal to the field.

DHS · USCIS

Immigrant-benefits platforms

Secure delivery of immigrant-benefits systems: multi-cluster cloud operations, governed release pipelines, and supply-chain assurance federal ISSOs already require.

Maryland

State & local readiness

Procurement and delivery posture for Maryland agencies — eMMA, MBE/SBR, licensing, and Secure Maryland — from a Silver Spring small business.

Platforms

Secure multi-cloud operations

Multi-cloud estates, Zero Trust, and audit-ready patterns ISSOs and state CIOs already score — CIS, STIG, HIPAA, and FedRAMP-aligned practice across AWS, GovCloud, and Azure.

LIVE PRODUCTS — APPLICATIONS HOSTED ON THE CLOUD

There Is A Job

thereisajob.com

Cloud-hosted hiring — search, score, tailor, apply.

My All Files

myallfiles.com

Cloud-hosted document vault — forms, packets, fill.

Gezuf

gezuf.com

Control plane that builds and hosts other applications.

Mintebale

mintebale.com

Cloud-hosted publishing — multilingual news, timed desk.

INDUSTRY DELIVERY

Privacera

Security automation, zero-day response, break-glass access, and Kubernetes infrastructure for the data-security platform.

Comerica Bank

Migrated applications to AWS cloud on ECS Fargate, with infrastructure defined as code.

Blue Cross Blue Shield

Healthcare reporting portals, data pipelines, and cloud-hosted applications under HIPAA habits.

How buyers reach us. Named past performance, live product URLs, and a Silver Spring team. Walk the portfolio at shirotechinc.com, read the accessible HTML statement at shirotechinc.com/capability.html, or write info@shirotechinc.com / (202) 361-3778.
